147 No. Tolla Road, Narayanganj-1400, Dhaka, Bangladesh

CAREER OBJECTIVE

Motivated Back-end Developer and Computer Science student with hands-on experience in building scalable web applications, REST APIs, and deep learning models. Passionate about software engineering, backend architecture, and AI-powered solutions. Seeking opportunities to contribute to innovative projects and grow as a professional developer.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL

Web Development: Node.js, Express.js, React.js, Redux Toolkit & RTK Query, Tailwind CSS, TypeScript

Backend Development: REST API Development, Authentication & Authorization, Payment Integration (Stripe)

Database: MongoDB, PostgreSQL, MySQL

Other Skills: Object-Oriented Programming (OOP), Git & GitHub, Deep Learning, TensorFlow & Transfer Learning

PROJECTS

Learning Management System (LMS) github.com/MohammedZIMS/Learning-Management-System

- Full-featured e-learning platform where instructors can create courses and students can enroll, watch lectures, and track progress
- Features: Course management system, Student enrollment and progress tracking, Secure authentication, Stripe payment integration, Responsive UI
- Technologies: React, Node.js, MongoDB, Stripe

Employee Management Application System Private Repositories

- Centralized system designed to digitize internal workflows, manage records, and improve collaboration between departments
- Features: Department management, Record maintenance, Workflow automation

Electricity Billing System github.com/MohammedZIMS/Electricity_Billing_System

- Desktop application for managing electricity billing operations
- Features: Bill calculation, Customer management, Payment tracking
- Technologies: Java, SQL, OOP

Remote Controlled Rover with Manipulator Arm github.com/imr4n4lif/remote-controlled-rover-with-manipulator-arm

- Remote-controlled robotic rover with robotic arm and sensor integration

RESEARCH PROJECTS

Vegetable Seed Classification Using Deep Learning github.com/imr4n4lif/seed-classification

- Classified 14 vegetable seed types, achieved 99.59% accuracy using MobileNetV3
- Used Transfer Learning
- Technologies: TensorFlow, CNN, MobileNetV3, EfficientNet

Multi-Class Potato Leaf Disease Classification github.com/MohammedZIMS/PotatoLeafDisease

- Designed and evaluated a six-model benchmark (Basic CNN, EfficientNetB0, EfficientNetB2, MobileNetV3-Large, DenseNet121, ResNet50) for automated classification of potato leaf diseases across six agronomic categories: Bacteria, Fungi, Healthy, Nematode, Pest, and Virus
- Developed a three-phase progressive transfer learning protocol with WarmupCosine LR scheduling, MixUp augmentation ($\alpha = 0.4$), label smoothing ($\varepsilon = 0.1$), and class-balanced loss weighting on a curated dataset of 5,920 images

EDUCATION

Bachelor of Science (BSc) in Computer Science and Engineering

- R. P. Shaha University, Narayanganj
- April 2023 – 2026

Higher Secondary Certificate (HSC), Science

- Govt. Tolaram University College, Narayanganj
- 2021 – 2022

Secondary School Certificate (SSC), Science

- Narayanganj Bar Academy, Narayanganj
- 2015 – 2020

LANGUAGES

- Bangla — Native
- English — Professional

CERTIFICATIONS

- Advanced Content Creation With AI
- Advanced Creative Design Mastery

STRENGTHS

- Strong backend development skills
- Problem-solving mindset
- Fast learner
- Team player

INTERESTS

- Software Development
- Artificial Intelligence
- Backend Architecture
- Research and Innovation

EXTRA-CURRICULAR ACTIVE

Campus Ambassador of ICT Olympiad Bangladesh - Season 3

- ICT Olympiad Bangladesh
- August 2025
- R. P. Shaha University, Narayanganj

Volunteer of Red Crescent Society

- Bangladesh Red Crescent Society (BDRCS)
- May 2019
- Narayanganj Bar Academy, Narayanganj
